Waddell Students Pitch in their Pennies for Charity...

Students at Waddell Elementary School were participating in a fierce competition for a good cause.

Children in grades kindergarten through fifth grade were collecting coins of all kinds in the annual Lights Of Love campaign. Throughout the month of December students were asked to collect as much change as they could from home and donate to their classroom jar. On December 19th Principal Mike Moynihan calculated all the classes' earnings. The winning class was first grade Mrs. Watson's class raising \$267.73. The money earned was all donated to the MACC shelter for needy Manchester families.

Waddell School has been holding this campaign for a several years in an effort to teach young children the value of giving back to those in need and feeling gratitude for what we have. The winning class won the right to light the Waddell tree and take the title of donating the most from all of the grades. The tree will remain in place through the New Year.
